

Timotei Petre

IT Support Engineer | Identity & Access Management

timoteisorin.petre@gmail.com Buzau, Romania
[linkedin.com/in/timotei-sorin-petre](https://www.linkedin.com/in/timotei-sorin-petre)

SUMMARY

IT Support Engineer working daily on **identity and access operations** in **Microsoft Entra ID** and on-prem **Active Directory**: account provisioning and de-provisioning, group-based access and licensing, **MFA and passkey resets**, and access troubleshooting through sign-in and audit logs. Operates under **delegated administrative roles** with privileged actions requested through PIM. Previously supported enterprise customers of **Auth0 (Okta Customer Identity Cloud)** on tenant configuration and connection settings. Auth0 Specialist certified. Open to relocating to Bucharest.

PROFESSIONAL EXPERIENCE

Greentech

IT Support Technician

11/2024 - Present
Buzau

- **Identity lifecycle**: account creation in Active Directory, group assignment, **group-based licensing**, account disablement and offboarding, password and **MFA/passkey resets**, primary user changes.
- **Access troubleshooting**: investigating sign-in failures using **sign-in and audit logs**; managing membership of **MFA exception groups**; resolving users blocked by location-based access policies; verifying directory synchronisation.
- **Delegated administration**: operating under Global Reader, Security Reader, Authentication Administrator and a custom group-assignment role; privileged actions requested via PIM, escalating to L3 beyond scope.
- **Account hygiene**: periodic **last sign-in review** to identify inactive accounts, verify offboarding completion and reclaim unused licences.
- **Intune**: Windows and mobile device enrolment, device sync, compliance policy propagation, including remote enrolment for colleagues in other countries.
- **Microsoft 365 & infrastructure**: email and collaboration support; monitoring with OpenVAS, Wazuh and Veeam Backup.

CGS (Auth0 by Okta)

Developer Support Engineer (Okta Customer Identity / Auth0)

01/2024 - 10/2024
Brasov, Remote

- Provided technical support to enterprise customers of **Auth0 (Okta Customer Identity Cloud)**, handling tickets through Salesforce
- Supported **tenant configuration**: custom domains, Universal and Classic login pages, and **SAML and OpenID Connect connection settings**
- Verified customer **entitlements and permissions**: tenant type, subscription plan and user rights, to determine whether a requested action was available
- Troubleshoot **authentication and MFA issues** reported by customers, escalating complex cases to engineering
- Worked with core identity concepts in a cloud identity platform: applications, connections, **identity federation** and login flows

Punctul IT

Education Facilitator

09/2021 - 11/2023
Buzau, Hybrid

- Delivered IT training to teenagers aged 14 to 18: logical thinking, web and mobile application development, and physical/software automation
- Taught HTML, CSS, JavaScript, WordPress and introductory robotics; also handled computer maintenance for the training labs

Child Evangelism Fellowship

Developer (Contract)

10/2019 - 03/2021
Brasov, Remote

- Contributed to the development of **Noah's Story**, an educational mobile game: 3D character implementation using Unity 3D and Mixamo, and release to the App Store and Google Play
